Continuation of Substance of Interview including description of the general nature of what was discussed: The amendments to the claims and specification, filed 12/1/2009, do not comply with 37 CFR 1.121 and will not be entered. Claims 54, 56, 60, 61 and 63 should have the status identifier "original." The amendment to the specification does not provide the correct location for the amended paragraphs. The page and line numbers are not consistent with the numbering of the originally filed specification. It was also noted that claim 65 contained a typographical error in the term "herpesvirus." Applicant's representative agreed to file an amendment to correct the non-compliance.
